**Good Values in Bananas**

As you no doubt know all Bananas are shipped to this country green and sold to the wholesaler from the steamer by the pound. They in turn ripen them in a specially prepared room by artificial heat. They are then crated and shipped, but being ripe they are very easily jammed and often arrive in bad shape. We have fitted up a room for ripening and have made arrangements to buy the green bananas direct from the dock. We have our first lot ready this week.
